Editorial Review

From the Back Cover

The most in-depth guide to JavaScript available

Create dynamic and flexible Web pages with JavaScript using this comprehensive resource. Whether you're a new or more experienced developer, you'll find quality coverage of every topic you're looking for--from fundamentals such as language syntax to advanced topics including interaction with browser plug-ins and the emerging W3C DOM standard. You'll learn to create cross-browser scripts for common tasks including form validation, visual effects, navigation systems and much more. In addition to the comprehensive tutorials that make up each chapter, the appendices contain helpful material that's quickly accessible--including object references, a browser compatibility chart, and other key JavaScript syntax charts. For a thorough and authoritative book on the latest version of JavaScript that's geared toward developers at every level--this is the ideal resource for you.

- Get an overview of JavaScript and Web programming
- Find out about core features and functionality--including variables, functions, and objects
- Acquire solid language fundamentals, including the effective use of JavaScript's object-oriented features
- Understand the differences between the standard Document Object Model (DOM) and Browser Object Models (BOM)
- Manipulate images and layout with JavaScript
- Add sophisticated navigation systems using DHTML
- Parse XML with JavaScript and control windows and frames
- Deal with browser incompatibilities and learn tips for debugging

About the Author

Thomas Powell (San Diego, CA) is a well-known author and educator in Web design and development. He is a lecturer for the University of California, San Diego Computer Science Department and the developer of the UCSD Extension Web Publishing Certificate program. He has been teaching classes in JavaScript, HTML, and Web design for more than four years. He is the author of the best-selling HTML: The Complete Reference and Web Design: The Complete Reference. Powell is also the President and founder of PINT, a Web site design and development firm. Fritz Schneider (San Diego, CA) is a masters degree student in Computer Science and is a software engineer with Anonymizer.com. While there, he has designed and implemented a variety of Apache modules, written CGI scripts, implemented a Web-based customer e-mail service, and created and maintained a large number of internal and public Web pages. Fritz has also served as a teaching assistant in Web programming and computer science classes at both UCSD and Columbia University.

Users Review

From reader reviews:

Lloyd North:

Do you have favorite book? If you have, what is your favorite's book? Reserve is very important thing for us

to be aware of everything in the world. Each reserve has different aim or even goal; it means that reserve has different type. Some people really feel enjoy to spend their the perfect time to read a book. They may be reading whatever they consider because their hobby is definitely reading a book. Why not the person who don't like studying a book? Sometime, person feel need book after they found difficult problem as well as exercise. Well, probably you'll have this JavaScript: The Complete Reference.

Jeremy Quick:

Reading a guide tends to be new life style in this particular era globalization. With examining you can get a lot of information that could give you benefit in your life. Using book everyone in this world can share their idea. Ebooks can also inspire a lot of people. Plenty of author can inspire all their reader with their story or perhaps their experience. Not only the storyline that share in the guides. But also they write about the information about something that you need case in point. How to get the good score toefl, or how to teach your children, there are many kinds of book that you can get now. The authors on earth always try to improve their proficiency in writing, they also doing some analysis before they write for their book. One of them is this JavaScript: The Complete Reference.

Richard Rodriguez:

In this era globalization it is important to someone to acquire information. The information will make professionals understand the condition of the world. The condition of the world makes the information quicker to share. You can find a lot of personal references to get information example: internet, newspapers, book, and soon. You can see that now, a lot of publisher in which print many kinds of book. The particular book that recommended to you personally is JavaScript: The Complete Reference this guide consist a lot of the information in the condition of this world now. This book was represented just how can the world has grown up. The language styles that writer use to explain it is easy to understand. Typically the writer made some exploration when he makes this book. That's why this book ideal all of you.

Walter Burchett:

Reading a e-book make you to get more knowledge from the jawhorse. You can take knowledge and information from the book. Book is composed or printed or descriptive from each source that filled update of news. With this modern era like now, many ways to get information are available for you actually.
