## The Age Of Globalization: Anarchists and the Anti-Colonial Imagination By Benedict Anderson

The exchange of ideas makes history as surely as the exchange of gunfire. *The Age of Globalization* (previously published as *Under Three Flags*) is an account of the unlikely connections that made up late nineteenth-century politics and culture. In particular, Benedict Anderson examines the links between militant anarchists in Europe and the Americas and the anti-imperialist uprisings in Cuba, China, and Japan. Told through the complex intellectual interactions of two great Filipino writers—the political novelist José Rizal and the pioneering folklorist Isabelo de los Reyes—*The Age of Globalization* is a brilliantly original work on how global networks shaped the nationalist movements of the time.
