### Human Anatomy & Physiology Laboratory Manual, Cat Version (12th Edition) By Elaine N. Marieb, Lori A. Smith

**NOTE: You are purchasing a standalone product; MasteringA&P does not come packaged with this content. If you would like to purchase both the physical text and MasteringA&P search for ISBN-10: 0321980875 /ISBN-13: 9780321980878 . That package includes ISBN-10: 0321971353/ISBN-13: 9780321971357 and ISBN-10: 0133999300 /ISBN-13: 9780133999303.**

*For the two-semester A&P laboratory course.*

*All instructor resources for this title are available in the Instructor Resources section on the MasteringA&P site.*

**Helping millions of future healthcare professionals prepare for lab and practice lab concepts.**

Revered for its thorough, clearly written exercises and explanations, *Human Anatomy & Physiology Laboratory Manual* has provided millions of future healthcare professionals with a complete hands-on laboratory and learning experience. The fully revised Twelfth Edition provides a more active, workbook-style approach that incorporates visual summaries, streamlines information, and engages students with hands-on drawing and review activities. New features include assignable Pre-lab Videos that introduce students to the lab and related equipment, and “Why this Matters,” which shows the relevance of lab activities to real-life and clinical examples. This edition is fully integrated with MasteringA&P, offering assignable visual media and activities that promote active learning and engage students.

For the first time, the lab manual is publishing alongside Marieb/Hoehn’s best-selling *Human Anatomy & Physiology* . Designed to meet the needs of the 2-semester A&P laboratory course, the manual can be used with any A&P textbook and is available in a customized edition, as well as in three conventional versions: Main (Eleventh Edition), Cat (Twelfth Edition), and Fetal Pig (Twelfth Edition).

**Also Available with MasteringA&P<sup>®</sup>**

This title is also available with MasteringA&P — an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. Students, if interested in purchasing this title with MasteringA&P, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

## **Editorial Review**

### About the Author

For **Elaine N. Marieb**, taking the student's perspective into account has always been an integral part of her teaching style. Dr. Marieb began her teaching career at Springfield College, where she taught anatomy and physiology to physical education majors. She then joined the faculty of the Biological Science Division of Holyoke Community College in 1969 after receiving her Ph.D. in zoology from the University of Massachusetts at Amherst. While teaching at Holyoke Community College, where many of her students were pursuing nursing degrees, she developed a desire to better understand the relationship between the scientific study of the human body and the clinical aspects of the nursing practice. To that end, while continuing to teach full time, Dr. Marieb pursued her nursing education, which culminated in a Master of Science degree with a clinical specialization in gerontology from the University of Massachusetts. It is this experience that has informed the development of the unique perspective and accessibility for which her publications are known.

Dr. Marieb has partnered with Benjamin Cummings for over 30 years. Her first work was *Human Anatomy & Physiology Laboratory Manual (Cat Version)*, which came out in 1981. In the years since, several other lab manual versions and study guides, as well as the softcover *Essentials of Human Anatomy & Physiology* textbook, have hit the campus bookstores. This textbook, now in its Ninth edition, made its appearance in 1989 and is the latest expression of her commitment to the needs of students studying human anatomy and physiology.

Dr. Marieb has given generously to provide opportunities for students to further their education. She contributes to the New Directions, New Careers Program at Holyoke Community College by funding a staffed drop-in center and by providing several full-tuition scholarships each year for women who are returning to college after a hiatus or attending college for the first time and who would be unable to continue their studies without financial support. She funds the E. N. Marieb Science Research Awards at Mount Holyoke College, which promotes research by undergraduate science majors, and has underwritten renovation and updating of one of the biology labs in Clapp Laboratory at that college. Dr. Marieb also contributes to the University of Massachusetts at Amherst where she generously provided funding for reconstruction and instrumentation of a cutting-edge cytology research laboratory. Recognizing the severe national shortage of nursing faculty, she underwrites the Nursing Scholars of the Future Grant Program at the university.

In 1994, Dr. Marieb received the Benefactor Award from the National Council for Resource Development, American Association of Community Colleges, which recognizes her ongoing sponsorship of student scholarships, faculty teaching awards, and other academic contributions to Holyoke Community College. In May 2000, the science building at Holyoke Community College was named in her honor.

In January 2012, Florida Gulf Coast University named a new health professions facility "Dr. Elaine Nicpon Marieb Hall." With the help of Dr. Marieb's generous donation, this facility contains laboratories in the School of Nursing that simulate an operating room, intensive-care unit, a labor and delivery room, and general medical surgical suites. She has also established a scholarship endowment for non-traditional students in the health professions, and an endowment to enhance the activities of faculty, students, and staff within health professions to support education, research, and community outreach.

Dr. Marieb is an active member of the Human Anatomy and Physiology Society (HAPS) and the American Association for the Advancement of Science (AAAS). Additionally, while actively engaged as an author, Dr. Marieb serves as a consultant for the Benjamin Cummings Interactive Physiology® CD-ROM series.

When not involved in academic pursuits, Dr. Marieb is a world traveler and has vowed to visit every country on this planet. Shorter term, she serves on the scholarship committee of the Women's Resources Center and on the board of directors of several charitable institutions in Sarasota County. She is an enthusiastic supporter of the local arts and enjoys a competitive match of doubles tennis.

**Lori A. Smith** received her Ph.D. in Biochemistry from the University of California at Davis. Before discovering her passion for teaching, she worked as a research scientist and project leader in the medical diagnostics industry. In 1999, she joined the faculty at American River College in the Biology Department. Currently she teaches anatomy and physiology and microbiology to pre-nursing and mortuary science students at American River College. Starting in 2005, she began co-authoring Pearson's PhysioEx: Laboratory Simulations in Physiology and has continued to co-author several versions of the software and lab manual. Dr. Smith has been awarded "Instructor of the Year" by the American River College Associated Students for her commitment to serving students, and she is a member of the Human Anatomy and Physiology Society (HAPS) and the National Association of Biology Teachers (NABT).

## **Users Review**

### **From reader reviews:**

#### **Richard Kitterman:**

What do you consider book? It is just for students since they are still students or the item for all people in the world, exactly what the best subject for that? Merely you can be answered for that issue above. Every person has various personality and hobby per other. Don't to be compelled someone or something that they don't need do that. You must know how great and also important the book Human Anatomy & Physiology Laboratory Manual, Cat Version (12th Edition). All type of book is it possible to see on many sources. You can look for the internet sources or other social media.

#### **Rose Miller:**

In this 21st millennium, people become competitive in every way. By being competitive right now, people have do something to make them survives, being in the middle of typically the crowded place and notice through surrounding. One thing that at times many people have underestimated that for a while is reading. Yes, by reading a publication your ability to survive improve then having chance to stand up than other is high. In your case who want to start reading a new book, we give you this kind of Human Anatomy & Physiology Laboratory Manual, Cat Version (12th Edition) book as beginner and daily reading guide. Why, because this book is more than just a book.

#### **Monica Philson:**

Exactly why? Because this Human Anatomy & Physiology Laboratory Manual, Cat Version (12th Edition) is an unordinary book that the inside of the e-book waiting for you to snap this but latter it will shock you with

the secret that inside. Reading this book beside it was fantastic author who all write the book in such remarkable way makes the content inside easier to understand, entertaining means but still convey the meaning totally. So , it is good for you for not hesitating having this anymore or you going to regret it. This phenomenal book will give you a lot of rewards than the other book have got such as help improving your ability and your critical thinking technique. So , still want to hesitate having that book? If I were you I will go to the guide store hurriedly.

**Sherry Nicholson:**

Some people said that they feel bored stiff when they reading a reserve. They are directly felt the idea when they get a half areas of the book. You can choose the actual book Human Anatomy & Physiology Laboratory Manual, Cat Version (12th Edition) to make your current reading is interesting. Your own personal skill of reading proficiency is developing when you including reading. Try to choose straightforward book to make you enjoy to read it and mingle the impression about book and examining especially. It is to be 1st opinion for you to like to open a book and examine it. Beside that the guide Human Anatomy & Physiology Laboratory Manual, Cat Version (12th Edition) can to be your new friend when you're experience alone and confuse in what must you're doing of these time.
