Editorial Review

From the Publisher

This top-selling laboratory manual follows a body systems approach and is compatible with any introductory anatomy and physiology text. The numerous, well-developed exercises require students to make microscopic examinations of cells and tissues, observe chemical reactions, perform dissections, record data, and then analyze the results of their work.

From the Back Cover

This top-selling laboratory manual features comprehensive coverage of all structures, extensive use of the scientific method, and full-color illustrations and photographs. Numerous laboratory exercises are expanded or enhanced. These include new physiology experiments, greatly expanded overviews in muscle tables, expanded tables and flow diagrams in artery and vein exercises, and completely rewritten exercises for surface anatomy. Provides through content coverage of both anatomy and physiology: dissection of the cat, white rat and selected mammalian organs, emphasis on the study of anatomy through histology, numerous physiological experiments, numerous SEMs and specimen photos, phonetic pronunciations and derivations for the vast majority of anatomical and physiological terms, diagrams of commonly used laboratory equipment, and laboratory report questions and blank reports submission. For anyone interested in anatomy and physiology.

About the Author

Robert Amitrano, the Biological Coordinator at Bergen Community College, teaches human anatomy and physiology, human biology, comparative anatomy and embryology. He is a colleague of Gerard Tortora's, and has worked on prior editions of that market leading Human Anatomy and Physiology text and continues to update and enhance the Lab Manual that supports Tortora's text. Robert Amitrano has also twice received awards from Who's Who Among America's Teachers.

Gerard J. Tortora teaches at Bergen Community College. He is the well-known author of the best-selling and highly praised PRINCIPLES OF HUMAN ANATOMY, Tenth Edition published by John Wiley & Sons.

Users Review

From reader reviews:

Gary Bloomfield:

Do you certainly one of people who can't read gratifying if the sentence chained inside straightway, hold on guys this particular aren't like that. This Laboratory Exercises in Anatomy and Physiology with Cat Dissections book is readable by means of you who hate those straight word style. You will find the details here are arrange for enjoyable looking at experience without leaving actually decrease the knowledge that want to provide to you.
