The Different Drum: Community Making and Peace By M. Scott Peck

'The overall purpose of human communication is - or should be - reconciliation. It should ultimately serve to lower or remove the walls of misunderstanding which unduly separate us human beings, one from another...' Although we have developed the technology to make communication more efficient and to bring people closer together, we have failed to use it to build a true global community. Dr M. Scott Peck believes that if we are to prevent civilization destroying itself, we must urgently rebuild on all levels, local, national and international and that is the first step to spiritual survival. In this radical and challenging book, he describes how the communities work, how group action can be developed on the principles of tolerance and love, and how we can start to transform world society into a true community.

Editorial Review

From Publishers Weekly

An advocate of a supranational government agency to replace obsolete nation-states and transformation of the military into a national service corps, psychiatrist Peck, author of *The Road Less Traveled*, etc., argues that physical and spiritual salvation no longer can be separated. The only way to combat the public apathy and "militant ignorance" that allow the arms race to continue lies in grass-roots propagation of the community ideal, which the church and government have lost, argues the author. Individualism plus group and self-acceptance, good communication and joint commitment are essential to building a true community whatever its membership and interests. Peck foresees a new era of integration favorable to a community movement that calls for universal application of the personal principles of tolerance and love. Renouncing both policies of appeasement and deterrence, he proposes a "peace through weakness" strategy that dares us to "empty" ourselves of outmoded ideas of security to the extent of facing the economic consequences of eliminating the arms race. From Library Journal

In his newest book psychiatrist Peck, author of *The Road Less Traveled* (LJ 9/15/78), explores the nature of community, which can be recognized, he suggests, by the vulnerability, honesty, and theological cultural inclusiveness of its participants. Born of a yearning for world peace, this draws exciting analogies between the ways communities emerge and the dynamics of individual spiritual development. A moving work that achieves a rich integration of social/psychological insights and a contemplative stance. EC
