While keeping pace with rapid changes in writing and its teaching, it offers the most comprehensive research and documentation available, with grammar coverage that is second to none. “Culture-Language” notes explore the most common issues faced by both non-native English speakers and students with dialect interference; rather than segregating this material, coverage is integrated so that students don’t feel compartmentalized. With detailed discussions of critical reading, media literacy, academic writing, and argument, as well as writing as a process, writing in the disciplines, and writing beyond the classroom, this handbook addresses writers of varying experience and in varying fields in a format that is a brief and convenient.

**Also available with MyWritingLab™**

This title is also available with MyWritingLab—an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts
