The Physiotherapist's Pocket Guide to Exercise: Assessment, Prescription and Training, 1e (Physiotherapy Pocketbooks) By Angela Jane Glynn PhD PG Cert MCSP, Helen Fiddler MSc MCSP PG Cert

This book is for therapists involved in exercise therapy for the prevention and treatment of disease. It covers exercise assessment, current prescription guidelines, precautions, exercise design and clinical case studies. The book also includes exercises to increase strength, power, local muscle endurance, range of movement and aerobic capacity and will be relevant to all areas of therapy practice. In addition to the general guidelines, considerations for exercise groups and exercise at home as well as exercise in special patient populations are addressed. This allows therapists who are expert in one area to become familiar with exercise prescription in another. The book underpins therapeutic exercise in general and also addresses specific considerations for particular clinical situations within current guidelines and practical considerations.

- Underpinning exercise physiology
- Physical principles of exercise design
- Guidelines for exercise training
- Clinical exercise prescription
- Limitations to exercise in common conditions
- Example case studies

Editorial Review

Review

"In this text, the latest in a series of physiotherapy pocketbooks, Angela Glynn and Helen Fiddler have set out to provide the reader with a quick reference guide for the safe and effective prescription of therapeutic exercise across a range of common clinical conditions. Importantly, the book should also raise a number of key questions concerning the role of the physiotherapist in the prescription of therapeutic exercise. This is something for which the authors must be widely congratulated."

As a student exactly feel bored to help reading. If their teacher expected them to go to the library as well as to make summary for some guide, they are complained. Just very little students that has reading's heart and soul or real their interest. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that reading is not important, boring and also can't see colorful images on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country.
