Editorial Review

About the Author

Judy Goodenough

Judy received her B.S. from Wagner College (Staten Island, NY), and her doctorate from New York University. She has 30 years of teaching experience at the University of Massachusetts, Amherst, specializing in introductory level courses. The insights into student concerns and problems—gained from more than 25 years of teaching Human Biology and 20 years of team-teaching *The Biology of Social Issues*—have helped shape this book. In 1986, Judy was honored with a “Distinguished Teaching Award.” In addition to teaching, she has written articles in peer-reviewed journals, contributed chapters to several introductory biology texts, and written numerous laboratory manuals. With the author team of McGuire and Jakob, she is preparing *Perspectives on Animal Behavior*.

Betty McGuire

Betty received her B.S. in Biology from Pennsylvania State University, where she also played varsity basketball. She went on to receive an M.S. and Ph.D. in Zoology from the University of Massachusetts, Amherst, and then spent two years as a postdoctoral researcher at the University of Illinois, Champaign-Urbana. Her field and laboratory research emphasize the social behavior and reproduction of small mammals. She has published numerous research papers, co-authored the text *Perspectives on Animal Behavior* as well as several introductory biology study guides, and served as an Associate Editor for *Mammalian Species*, a publication of the American Society of Mammalogists. Betty taught Human Biology, Introductory Biology, Vertebrate Biology, and Animal Behavior at Smith College. She now teaches Mammalogy and *The Vertebrates: Structure, Function, and Evolution* at Cornell University.

Users Review

From reader reviews:

Joseph Barnett:

In other case, little men and women like to read book *Biology of Humans: Concepts, Applications, and Issues (4th Edition)*. You can choose the best book if you love reading a book. So long as we know about how is important a book *Biology of Humans: Concepts, Applications, and Issues (4th Edition)*. You can add understanding and of course you can around the world by way of a book. Absolutely right, due to the fact from book you can recognize everything! From your country until finally foreign or abroad you will find yourself known. About simple factor until wonderful thing you are able to know that. In this era, we can easily open a book or maybe searching by internet gadget. It is called e-book. You can use it when you feel bored to go to the library. Let's study.

Burton Zinn:

Book will be written, printed, or illustrated for everything. You can realize everything you want by a book. Book has a different type. As you may know that book is important matter to bring us around the world. Adjacent to that you can your reading ability was fluently. A publication *Biology of Humans: Concepts,*

Applications, and Issues (4th Edition) will make you to end up being smarter. You can feel considerably more confidence if you can know about every thing. But some of you think that will open or reading a book make you bored. It is not necessarily make you fun. Why they can be thought like that? Have you searching for best book or acceptable book with you?

Everette Murray:

As people who live in the modest era should be change about what going on or details even knowledge to make all of them keep up with the era that is always change and progress. Some of you maybe will probably update themselves by studying books. It is a good choice in your case but the problems coming to you is you don't know what kind you should start with. This Biology of Humans: Concepts, Applications, and Issues (4th Edition) is our recommendation to make you keep up with the world. Why, because this book serves what you want and want in this era.

Gail Blakely:

With this era which is the greater particular person or who has ability in doing something more are more special than other. Do you want to become one of it? It is just simple approach to have that. What you must do is just spending your time little but quite enough to get a look at some books. One of the books in the top checklist in your reading list is Biology of Humans: Concepts, Applications, and Issues (4th Edition). This book that is certainly qualified as The Hungry Mountains can get you closer in turning out to be precious person. By looking upward and review this e-book you can get many advantages.
