**The World of Children (2nd Edition)** By Greg Cook, Joan Littlefield Cook

**For the undergraduate child development course taught chronologically.**

The World of Children is a chronological child development textbook by Joan Littlefield Cook and Greg Cook that helps students connect the science and the practice of child development in a way that can positively change lives. This exciting new text features an active learning system that exposes students to real people facing real world child development challenges, and encourages them to think critically about issues from multiple perspectives.

The World of Children demonstrates the practical applications of child development through interviews with a diverse group of real parents and a variety of professionals who rely upon child development information in their jobs. Each chapter also spotlights the ways programs, laws, regulations, and other governing aspects of society can affect children.

**Looking for additional resources to help you understand the material and succeed in this course?** MyDevelopmentLab contains study tools such as flashcards, self tests, videos, as well as MyVirtualChild which allows you to raise your own virtual child from birth through age 18 and monitor the results.

### Editorial Review

From the Back Cover

MyDevelopmentLab with MyVirtualChild is a learning and assessment tool that allows instructors to assess student performance and adapt course content without investing a lot of additional time or resources.

Students benefit from this easy-to-use site with or without their instructor's involvement. Students can test themselves on key content, track their progress, and utilize individually tailored study plan activities, including an e-book, simulations, newsfeeds, videos, and application exercises.

MyDevelopmentLab also provides students the opportunity to raise a virtual child from birth to age 18 and monitor the effects of specific parenting decisions over time.

About the Author

**Greg Cook** is a Professor of Psychology at the University of Wisconsin-Whitewater. Greg majored in Psychology at the University of Dayton and later received his Ph.D. in Psychology at Vanderbilt University. For over 20 years he has taught courses in child development, research methods, statistics, and related topics at Whitewater as well as at the University of Wisconsin-Madison and Vanderbilt University. At Whitewater Greg received a department award and also a College of Letters and Sciences award for excellence in teaching. Students consistently comment on his ability to present difficult information in a clear and understandable way. Greg's research on cognitive development has been published in scholarly journals such as *Child Development*, *Developmental Psychology*, and the *Journal of Experimental Child Psychology*. He also collaborated with colleagues in the College of Education on studies published in the *Journal of Experimental Education*, the *Journal of Research & Development in Education*, and the *Journal of Reading Education*. Greg is a former chairperson in the Department of Psychology and has also worked in the Associate Dean's Office in his college, and currently serves as as Director of Academic Assessment. Teaching students in face-to-face and in online formats is still his main passion.

**Joan Littlefield Cook** is a Professor of Psychology and current chairperson of the Psychology Department at the University of Wisconsin-Whitewater. As an undergraduate she majored in Psychology at Tennessee Technological University. She earned a Master's and Ph.D. in Psychology and Human Development at Vanderbilt University. Joan has taught courses for more than 20 years related to child and adolescent development, educational psychology, and cognitive psychology at the University of Wisconsin-Whitewater, the University of Wisconsin-Madison, and Middle Tennessee State University. Her classes have ranged from large lecture courses with 250 students to small seminars. Students have always appreciated her knowledge of the field and her ability to present information in a way that is useful, motivating, and friendly. The Student Association at the University of Wisconsin-Madison voted her as one of their most outstanding professors, and the UW-Whitewater Psychology Student Organization presented her with their *Excellence in Teaching Award*. Joan's research is on mathematical problem solving and cognitive development. She and her colleagues have published papers in the *Cognition & Instruction*, *Journal of Educational Psychology*, *Intelligence, Memory & Cognition*, the *Gifted Child Quarterly*, and the *Journal of Experimental Psychology*. She has co-authored two other books and numerous instructional materials.

Greg and Joan also co-authored *Child Development: Principles and Perspectives*, a fresh and widely-

acclaimed textbook (published by Allyn & Bacon) that explores child development within a topical framework.
