Xenocide By Orson Scott Card

The war for survival of the planet Lusitania will be fought in the heart of a child named Gloriously Bright.

On Lusitania, Ender found a world where humans and pequininos and the Hive Queen could all live together; where three very different intelligent species could find common ground at last. Or so he thought.

Lusitania also harbors the descolada, a virus that kills all humans it infects, but which the pequininos require in order to become adults. The Startways Congress so fears the effects of the descolada, should it escape from Lusitania, that they have ordered the destruction of the entire planet, and all who live there. The Fleet is on its way, a second xenocide seems inevitable.

Xenocide is the third novel in Orson Scott Card's Ender Quintet.

Amazon.com Review

Orson Scott Card's *Xenocide* is a space opera with verve. In this continuation of Ender Wiggin's story, the Starways Congress has sent a fleet to immolate the rebellious planet of Lusitania, home to the alien race of *pequeninos*, and home to Ender Wiggin and his family. Concealed on Lusitania is the only remaining Hive Queen, who holds a secret that may save or destroy humanity throughout the galaxy. Familiar characters from the previous novels continue to grapple with religious conflicts and family squabbles while inventing faster-than-light travel and miraculous virus treatments. Throw into the mix an entire planet of mad geniuses and a self-aware computer who wants to be a martyr, and it's hard to guess who will topple the first domino. Due to the densely woven and melodramatic nature of the story, newcomers to Ender's tale will want to start reading this series with the first books, *Ender's Game* and *Speaker for the Dead*. --Brooks Peck

From Publishers Weekly

As the penultimate story in the series that began with the impeccable *Ender's Game*, this volume is essential for fans but neither the book nor audio rise to the level of the first two volumes. The planet Lusitania is home to a small Portuguese colony, a newly discovered sentient race called the Pequininos, the last surviving Hive Queen of the Buggers, and *Descolada*, a virus that will destroy the human race if it gets off-planet. Because

of the virus, a starship fleet is dispatched to destroy Lusitania. On the distant Chinese world of Path, a young pious girl influences history by uncovering secrets kept well-buried for millennia and in the process sealing the fate of both Lusitania and Path. The sanctimonious tone used by the girl's reader has great depth and fits the character so perfectly that she creates a fully dimensional, aggravating character. The pacing is as uneven as the cast's ability to maintain their Chinese and Portuguese accents. The music is randomly placed throughout and loses its effectiveness. A great deal of talent went into this production and while the good parts dominate, this is still a weaker effort in the series. *Available as a TOR paperback. (Mar.)*

From reader reviews:

Shirley Gilliam:

This Xenocide is great publication for you because the content and that is full of information for you who else always deal with world and also have to make decision every minute. This kind of book reveal it data accurately using great plan word or we can point out no rambling sentences included. So if you are read that hurriedly you can have whole info in it. Doesn't mean it only provides you with straight forward sentences but hard core information with splendid delivering sentences. Having Xenocide in your hand like having the world in your arm, info in it is not ridiculous 1. We can say that no reserve that offer you world inside ten or fifteen second right but this e-book already do that. So , this is certainly good reading book. Hey Mr. and Mrs. active do you still doubt this?

Thomas Tritt:

Beside this particular Xenocide in your phone, it could give you a way to get closer to the new knowledge or information. The information and the knowledge you are going to got here is fresh from your oven so don't always be worry if you feel like an previous people live in narrow town. It is good thing to have Xenocide because this book offers for your requirements readable information. Do you oftentimes have book but you do not get what it's all about. Oh come on, that wil happen if you have this in your hand. The Enjoyable blend here cannot be questionable, including treasuring beautiful island. Techniques you still want to miss the item? Find this book as well as read it from at this point!

Ann Potter:

As we know that book is very important thing to add our information for everything. By a reserve we can know everything we want. A book is a set of written, printed, illustrated as well as blank sheet. Every year was exactly added. This reserve Xenocide was filled in relation to science. Spend your free time to add your knowledge about your science competence. Some people has several feel when they reading any book. If you know how big selling point of a book, you can feel enjoy to read a guide. In the modern era like today, many ways to get book that you simply wanted.

Robert Polk:

As a college student exactly feel bored in order to reading. If their teacher asked them to go to the library or even make summary for some book, they are complained. Just little students that has reading's internal or real their passion. They just do what the educator want, like asked to go to the library. They go to at this time there but nothing reading seriously. Any students feel that looking at is not important, boring as well as can't see colorful images on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this Xenocide can make you experience more interested to read.
