

Human Sleep and Cognition, Volume 185: Basic Research (Progress in Brain Research)

From Elsevier Science

Human Sleep and Cognition, Volume 185: Basic Research (Progress in Brain Research) From Elsevier Science

Focuses on the interplay of mind and motion - the bidirectional link between thought and action. In particular, This book investigates the implications that this coupling has for decision making. How do we anticipate the consequences of choices and how is the brain able to represent these choice options and their potential consequences?
