Netter's Atlas of Anatomy for Speech, Swallowing, and Hearing, 2e By David H. McFarland

Filled with Dr. Frank Netter's world-class illustrations and all the essential information on anatomy and physiology relevant to SLH, **Netter's Atlas of Anatomy for Speech, Swallowing, and Hearing, 2nd Edition** uses a unique "read-it, see-it" approach to help you easily connect anatomy and physiology concepts to detailed illustrations. This full-color SLH-specific atlas contains a basic overview of anatomical organization systems, expanded content on swallowing, and updated discussions on the anatomical and functional bases of normal speech, swallowing, and hearing to give you a solid foundation in learning how to diagnose and treat SLH disorders.

- **UNIQUE! Frank Netter's medical illustrations and straightforward descriptions** clearly present the anatomy and physiology of speech, language, and hearing to help you easily build the foundation necessary to diagnose and treat disorders.
- **System musculature summary tables** for each section present vital information in a quick, easy, and consistent format for study and reference.
- **Evolve student resources** include video clips of cadaver dissections, animations, self-test questions and exercises to enhance your understanding of SLH anatomy and physiology.
- **A balance of text and illustrations** with text on the left hand page and the related image on the right provides both the visual and written information you need to know in a "read-it, see-it" format.
- **NEW! Expanded content on swallowing** meets the growing need for this vital information.
- **NEW! Updated content and references** gives you the most current information on the anatomy and physiology relevant to speech, language, and hearing.
