## Auto Collision Repair and Refinishing By Michael Crandell

**Auto Collision Repair and Refinishing** details the latest collision repair and refinishing techniques, as well as more traditional repair procedures. It presents both the theoretical and practical aspects of collision repair and refinishing, preparing students for a fast-paced workplace that is becoming increasingly technical.

Organized around the NATEF Collision Repair and Refinish Task List, this comprehensive textbook includes information on MIG welding, HVLP spray painting, paintless dent repair, low-VOC finishes, paint matching, structural frame repair, detailing, and flexible plastic component repair, and estimating. Detailed chapters on mechanical systems, such as brake systems, cooling systems, and restraint systems, allow students to recognize and repair common types of mechanical damage. An extensive estimating chapter provides unsurpassed instruction on this vital task, walking students through the steps required to estimate specific types of damage.

**Auto Collision Repair and Refinishing** is an indispensable resource for students preparing for a career in collision repair and refinishing, as well as experienced technicians preparing for the ASE collision repair and refinish certification tests.
