Introducción al Cristianismo: Lecciones sobre el credo apostólico (Introduction to Christianity) (Spanish Edition) By Joseph Cardinal Ratzinger

¿Qué es el cristianismo? Responder a esta pregunta constituye el objetivo fundamental de este libro. Para ello, nada mejor que centrarse en uno de los textos fundamentales, el Credo, en el que la comunidad cristiana ha sintetizado su fe y a través del cual la proclama cada vez que la recita.

Siendo un texto que se quedó fijado en los albores del cristianismo, se hace necesario, por una parte, entender bien qué se quiso decir y cuáles fueron el contexto y el trasfondo en los que nace. Pero, por otra parte, por ser expresión viva de la fe, ha de ser sometido a una constante reinterpretación, para que sus fórmulas sean inteligibles a los creyentes de cada momento histórico. El equilibrio entre la fidelidad a algo recibido en el seno de la Iglesia y la actualización de su contenido es una exigencia que atañe no sólo a la teología sino a la vida de fe de todo creyente. El cardenal Ratzinger ha sabido responder a este reto, prestando especial atención a los problemas que la cultura moderna ha planteado a la fe.

Esta nueva edición de «Introducción al cristianismo» contiene el prólogo que el propio autor ha escrito en el año 2000. Siendo una obra clásica, queda así enriquecida con esta aportación de casi treinta nuevas páginas.

What is Christianity? The main purpose of this book is to offer an answer to that question. For that reason, the author considers best to concentrate on one of the key texts, the Creed, in which the Christian community has summarized its faith and through which it proclaims it each time it is recited.

Since it is a text fixed in the early moments of Christianity, it is necessary, on the one hand, to understand its original meaning and context. On the other hand, since it is the living expression of our faith, it must be constantly reinterpreted, so that it might be understandable in each historical period. To achieve a balance between the fidelity to the Church tradition and the renewal of its content is a demand not only for theologians but also for all believers. Cardinal Ratzinger has

been able to face that challenge, paying special attention to those questions modern culture poses to faith.

This new edition of Introduction of Christianity contains the preface written by the author on occasion of the year 2000. This classic work is thus enriched with his contribution of nearly thirty new pages.

Editorial Review

From the Publisher

"In the Auditorium maximum of the University of Tübingen, in the presence of listeners from all schools, Ratzinger has dared to do what is the dream of any theologian: to tell oneself and others what Christianity is. The fact that over 50000 copies have been sold in such a short time is an indication that Ratzinger has achieved his purpose. A Summa of any theologian is called to be a humble, enlightening, and critical commentary on the symbol of the one Church. She is the addressee of this book and its judge." — Olegario Gonzalez, School of Theology, Pontifical University, Salamanca
