Star Ware: The Amateur Astronomer's Guide to Choosing, Buying, and Using Telescopes and Accessories By Philip S. Harrington

Praise for Star Ware

""Star Ware is still a tour de force that any experienced amateur will find invaluable, and which hardware-minded beginners will thoroughly enjoy.""

- Robert Burnham, Sky & Telescope magazine

""Star Ware condenses between two covers what would normally take a telescope buyer many months to accumulate.""

- John Shibley, Astronomy magazine

Whether you're shopping for your first telescope or your fifth, don't be surprised if you feel overwhelmed by the dazzling array of product choices, bells and whistles, and the literature that describes them all. That's why you need Star Ware.

In this revised and updated Fourth Edition of the essential guide to comparing and selecting sky-watching equipment, award-winning astronomy writer Philip Harrington takes you telescope shopping the easy way. He analyzes and explains today's astronomy market and compares brands and models point by point. Star Ware gives you the confidence you need to buy the telescope and accessories that are right for you and the knowledge to get the most out of your new purchase, with:

*

Extensive, expanded reviews of leading models and accessories-including dozens of new products

*

A clear, step-by-step guide to every aspect of selecting telescopes, binoculars,

filters, mounts, lenses, cameras, film, star charts, guides and references, and much more

*

Ten new do-it-yourself projects for building your own astronomical equipment

*

Easy tips on setting up, using, and caring for telescopes and other astronomical equipment

*

Lists of where to find everything astronomical, including Web sites and resources; distributors, dealers, and conventions; and corporate listings for products and services

About the Author

Philip S. Harrington holds degrees in mechanical engineering and science education. As a contributing editor for *Astronomy* magazine, he writes reviews of astronomical equipment as well as a monthly column on binocular astronomy. He is the author of the three previous editions of *Star Ware* as well as *Star Watch*, *Touring the Universe through Binoculars*, and *Eclipse!*

Users Review

From reader reviews:

Woodrow Harker:

Book is definitely written, printed, or outlined for everything. You can understand everything you want by a

publication. Book has a different type. To be sure that book is important factor to bring us around the world. Beside that you can your reading expertise was fluently. A publication *Star Ware: The Amateur Astronomer's Guide to Choosing, Buying, and Using Telescopes and Accessories* will make you to possibly be smarter. You can feel much more confidence if you can know about everything. But some of you think in which open or reading some sort of book make you bored. It isn't make you fun. Why they are often thought like that? Have you looking for best book or suited book with you?

Mark Vandyke:

What do you about book? It is not important to you? Or just adding material when you really need something to explain what yours problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to perform others business, it is make one feel bored faster. And you have free time? What did you do? Everyone has many questions above. They need to answer that question because just their can do this. It said that about publication. Book is familiar on every person. Yes, it is proper. Because start from on jardín de infancia until university need that *Star Ware: The Amateur Astronomer's Guide to Choosing, Buying, and Using Telescopes and Accessories* to read.

Edward Chavez:

Reading a book tends to be new life style with this era globalization. With examining you can get a lot of information that can give you benefit in your life. With book everyone in this world can certainly share their idea. Publications can also inspire a lot of people. A lot of author can inspire their very own reader with their story or their experience. Not only the storyplot that share in the books. But also they write about advantage about something that you need illustration. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that you can get now. The authors nowadays always try to improve their proficiency in writing, they also doing some research before they write to their book. One of them is this *Star Ware: The Amateur Astronomer's Guide to Choosing, Buying, and Using Telescopes and Accessories*.

Harold Young:

Reading a book make you to get more knowledge from the jawhorse. You can take knowledge and information from the book. Book is prepared or printed or descriptive from each source this filled update of news. In this particular modern era like currently, many ways to get information are available for you. From media social similar to newspaper, magazines, science reserve, encyclopedia, reference book, story and comic. You can add your understanding by that book. Are you ready to spend your spare time to open your book? Or just searching for the *Star Ware: The Amateur Astronomer's Guide to Choosing, Buying, and Using Telescopes and Accessories* when you essential it?
