The Social Construction of Reality: A Treatise in the Sociology of Knowledge By Peter L. Berger, Thomas Luckmann

Called the "fifth-most important sociological book of the 20th century" by the International Sociological Association, this groundbreaking study of knowledge introduces the concept of "social construction" into the social sciences for the first time. In it, Berger and Luckmann reformulate the task of the sociological subdiscipline that, since Max Scheler, has been known as the sociology of knowledge.
